

Year 5– Homework Calendar – Spring Term

Complete one piece of homework EVERY week. There are 14 to choose from.

Hand your book in each week on **Monday** so it can be marked and given back on **Wednesday**.

If you need further explanation for a task or need it to be simplified or made more challenging, please speak to your teacher. When you have completed an activity – colour in the correct box. You can present your work in your however you wish, you might want to use pictures, photographs, writing, models or sculpture to help you.

<p>Create a Maths poster/activity Explain the four methods. Multiplication, division, addition and subtraction or anything you want to. Perhaps you can explain how to use reasoning, converting fractions or make your own investigation. Can you challenge someone at home to complete it?</p>	<p>Famous Scientists Pick a famous scientist. Research this and think about how you will display this research. E.g Isaac Newton, David Attenborough or Charles Darwin.</p>	<p>Balanced or unbalanced? Think about your learning in PE. Your task is to choreograph (create) a sequence that includes three different balances. Think about how you could evidence this in your Learning Log. Will you include photos or draw sketches to show what you did?</p>	
<p>OWN CHOICE HOMEWORK Choose something to do in your home learning book to show your teacher next week. e.g. 5 Star rules, DEBUG or Our Values.</p>	<p>Great Reads Tell us all about your favourite poem. Why is it so good? What is it about? Who wrote it? Remember you can present your ideas as you wish, it doesn't have to be written down, you could tell us through pictures or a model.</p>	<p>Who were the Vikings? Following your learning in class, produce a non-chronological report about the Vikings– you could use facts from class or research of your own. Remember to organise your work into paragraphs and maybe think about using a question as a sub-heading!</p>	<p>Where in the world? Choose a country that you are interested in researching. Find out about the people of the country, the landscape, its history, food, fashion etc. Record your work in suitable paragraphs.</p>
<p>Facts, Facts, Facts Present 10 key facts about the Vikings. Remember you can present your ideas as you wish, it doesn't have to be written down, you could tell us through pictures or a model.</p>	<p>Phases of the moon Looking up into the night sky you might have notice that the moon often looks different. Why is this? How often does it change? What names are given to the different shapes that we see in the sky?</p> 	<p>What's in the news? Read a newspaper article or watch the news. Tell us what the article was about and what you thought about it. What's your opinion?</p>	<p>Great Reads Tell us all about your favourite book so far in Year 5. Why is it so good? What is it about? Who wrote it? Remember you can present your ideas as you wish.</p>
<p>Recount Write a science-fiction story, you may want to include a portal to link with our learning in class. Remember, set the scene, describe your character/s, use description, include gadgets and gizmos.</p>	<p>OWN CHOICE HOMEWORK Choose something to do in your home learning book to show your teacher next week. e.g. 5 Star rules, DEBUG or Our Values</p>	<p>What makes a Successful Learner? Your task is to think about all the attributes that need to combine to make you a successful, lifelong learner. What qualities do you need? What has to happen if you encounter failure or setbacks?</p>
