

## **Purpose**

This booklet provides information for parents and carers on the end of year expectations for children in our school in line with the requirements of the new national curriculum.

We have identified these expectations as being the minimum requirements your child must meet in order to ensure continued progress throughout the following year.

All the objectives will be worked on throughout the school year and will be the focus of direct teaching.

Any extra support you can provide in helping your child(ren) to achieve these minimum expectations is greatly valued.

If you have any queries regarding the content of this booklet or want support in knowing how best to help your child please speak to your child's class teacher.

# We Need You!

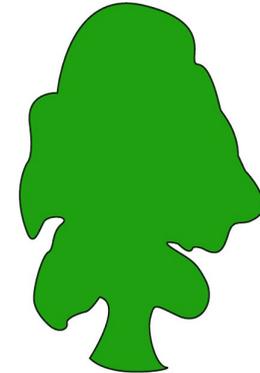

Can you spare a few hours each week to come into school and hear children read? Reading is such an important life skill and we want to work with you to enable every child at Elmhurst to read as often as possible.

If you think you might be able to volunteer in school, please speak to your child's class teacher and we will contact you to arrange a tour of the school and discuss the opportunities further.

We are happy to write references for any parents that volunteer who might be looking for work in the future.
